**THE THINKING ACADEMY:**  
**A school which embraces cognitive education across the curriculum**  
**A Proposal to Redesign America's Schools**

**A VISION:**

**A school where administrators, teachers, and parents collaborate to promote the best in education for their students. Teachers are trained in both academic areas and in critical thinking strategies which foster effective learning. Assessment outcomes and academic achievement will be high for every student in the school. Students will qualify for post-secondary learning, regardless of their family and social background.**
